

## DANIELSON AND PUTNAM NEWS

## DANIELSON

**Hard Luck of William Privy—Area Maps Received—Death of Amable Davignon, Father of Joseph Davignon of Norwich.**

John Chesbro, 18, of Dayville, has been taken to the Day Kimball hospital to receive treatment for an injury received when he came in contact with a carding machine in the mill of the Assawaugus Woolen company at Dayville. Young Chesbro had his arm broken and badly lacerated in the accident, his injury being serious.

## NOT THE 13TH.

**Yet William Privy Had Series of Mishaps—Is Now in Jail.**

William Privy, about 55, who has lived in Wauregan, Attawaugus and other mill villages in this vicinity, was taken to the jail at Brooklyn Thursday morning to work out a fine of \$2 and costs, imposed by Deputy Judge J. N. Tucker in the town court. The charge was intoxication.

Privy is somewhat unlucky. He was arrested after being pulled out from under the fender of a trolley car with which he was disputing the right of way, opposite the Central house late Wednesday night. He would have been killed but for the prompt action of Motorman Card in applying the emergency brakes. As it was, he was only stunned and one side of his face was scraped.

Thursday morning on the way over to jail Privy asked Chief Pilling if he would be allowed to smoke. He was granted the privilege, and in attempting to light his pipe managed to set his clothing afire, the chief acting as fire extinguisher. The hope is that something serious will not result from the prisoner during the few days that he must stay in Brooklyn.

## New Area Maps Arrive.

Danielson people who subscribed last summer have received the new area maps of Danielson, the first of the kind to be made of this place in a great many years. The maps are very fine and are greatly prized by those who have them. The artists who made the drawings for the maps spent several weeks here last summer, the result of their labors being a very accurate representation of an area view of Danielson as it is at present, although the over critical might find an opportunity to criticize the lack of certain minor details. Most of those who have the maps have made arrangements to preserve them for reference purposes.

## Officers of Danielson Chapter.

Following are the newly elected officers of Danielson chapter, Order of the Eastern Star: Worthy matron, Mrs. F. O. Arrington; associate matron, Mrs. Clarence Potter; conductress, Mrs. Oray Potter; associate conductress, Mrs. Frank Gilbert; secretary, Mrs. William Warren; treasurer, Clarence A. Potter; patron, Sidney Bard.

The officers were elected at the annual meeting held Wednesday evening, when three grand lodge officers, Grand Matron Mrs. Bertha Schuessler of Litchfield, Grand Patron Edward Fuller of Toland, and Grand Chaplain Mrs. Mary Kenyon of Putnam, were present on an official visit to the chapter. The evening was a very pleasant one for all. Refreshments were served.

**Milk Worth More a Quart.** Various milk producers who have farms in this vicinity and make morning deliveries in Danielson are becoming discouraged over the profitlessness of the business, and some of them are trying to dispose of their routes, this being the case with one producer in particular who delivers about 200 quarts a day here.

Milk deals in Danielson at seven cents a quart. Most of it is milk of the very highest quality. At this figure some of the producers say they

are actually losing money, as they figure they are facing a cost of more than seven cents a quart in the producing of it, the dealer referred to claiming that he cannot make a profit at less than nine cents a quart retail.

## OBITUARY.

## Amable Davignon

Amable Davignon, 84, died at his home on Riverview Wednesday evening. He had been seriously ill for about 15 months. Mr. Davignon came to Danielson last January from Wauregan, where he had been a well-known resident for forty years. He was a native of Iberville, P. Q., where he was married. His wife died suddenly while visiting a daughter in Baltimore, a year ago last August. They would have celebrated their golden wedding anniversary had Mrs. Davignon lived a few months longer. Mr. Davignon was five feet and one inch tall and had a long, thin build during the many years that he resided hereabouts.

He is survived by three sons, George of Danielson, Joseph of Norwich, and John of Woonsocket, and three daughters, Mrs. A. Maynard of North Grosvenordale, Mrs. F. A. Gareau of Baitie and Mrs. H. Martineau, who has cared for her father during his last illness.

## 300 Horse Power Motor.

A 300 horse power electric motor has been received here for the Danielson Cotton company, the motor to be used in connection with the distribution of power at the mill.

## Preparing for State Road.

F. Walden Wright of Putnam, state division engineer, has been supervising the work of placing the stakes that are to guide the employees of the town of Killingly in building the stretch of state road authorized built from the foot of Reynolds street over Stearns' Hill. It is not probable that any amount of work will be done on the road until spring.

## Lighting Wires Strung.

The work of stringing the wires for the illumination of Main street in a special way during the holiday season was practically completed Thursday night. It is expected that the bulbs will be put in the sockets today, and that the lights will be ready for use for the first time on Saturday night.

## Outing at Oakland Beach.

William Franklin will have a party of members of the Bohemian club as his guests at his cottage at Oakland Beach over Sunday. The party will leave here Saturday afternoon and will attend a theater in Providence Saturday night.

## Borough Notes and Personals.

Rev. U. O. Bellerose of Baitie has been a recent visitor with friends in Danielson.

Thursday was the real cold day of the season so far, the temperature remaining below 20 degrees during all the day.

Samuel E. Johnstone, who left here last month for Atlanta, Ga., has taken up the study of law in that city, where he is staying with Mr. and Mrs. Gordon A. Johnstone.

The basketball team of Killingly High school went to Norwich Thursday evening for a game with the Laurier Hill team of that city.

Salvation Army officers from Putnam have been making collections for the Christmas fund from Danielson business houses.

G. A. Seiden of Providence called on friends in Danielson Thursday. Mrs. Edith Swan Corbett, the noted trombone soloist, has been spending a few days at her home, a few miles east of here.

## Blow to Cigarette Trade.

Last week there were born in Housatonic 19 boys and 29 girls. If this rule is maintained for 49 years we can see where the Housatonic cigarette trade is going broke. But there will be something doing in the chewing gum industry—Housatonic Post.

## PUTNAM

**Mother and Son Have Smallpox, Probably Brought by Returning Canadian Tourist—Horse Stolen—Heavy Fines for Joseph Plant—About the Parcels Post.**

Putnam has two cases of smallpox. The patients have been quarantined and every precaution has been taken to prevent the spread of the disease. Mrs. Alphonsine Beaupre and her son, Eugene, residents in the mill village in the north end of the city, are the patients. Mrs. Beaupre's case being of the severe type, though not extremely so. The son's case is not as fully developed as that of his mother nor does it threaten to be so virulent.

It was on Tuesday that Dr. Edward F. Perry first saw Mrs. Beaupre. He immediately became suspicious of the case. Wednesday he called Dr. Omer Larue, the health officer, in consultation with Dr. L. O. Morasse. All the physicians were convinced as to the nature of the case, but did not make any declaration of a positive nature until Thursday, although quarantine was ordered and rigidly maintained from Wednesday.

The history of the cases seem to indicate that they are due to contagion brought here from a town in Canada by Dennis Cabana, brother-in-law of Mrs. Beaupre. When he returned he was suffering from an eruptive disease, but was able to be about. He did not know the nature of his trouble, but indicated that "the son" in Canada, where he had been staying there were many similar cases.

Mrs. Beaupre has been ill since Saturday. Eugene Beaupre, who up to Thursday had not fully developed the disease, has been about the north end of the city. Medical opinion Thursday was to the effect that the circumstances surrounding the development of the cases are such that it is not probable the disease has been spread here.

Arrangements were being made Thursday evening for placing on duty at the Beaupre home a special officer and an immune, who will closely guard the premises until all danger is past.

## Horse Unhitched and Driver Away.

Captain John Murray was busy on Thursday trying to locate a horse stolen in this city Wednesday night. The animal was the property of Albertus Chase of the town of Thompson. He had come here to visit at a home on North School street and left the rig outside.

Some time during the visit of Mr. Chase to his friends the horse was unhitched from the post where he had been left and driven away. On cards stolen by the police department Thursday the horse is described as black, close-clipped, white face and with a short tail. The horse was hitched to a piano box buggy that had oil cloth upholstery on the seat.

No trace of the rig had been obtained up to Thursday evening.

## Joseph Plant Pays \$36.49.

Joseph Plant, who hired a rig from M. R. Joy's stable on Monday night and later abandoned the horse, was handed a stiff set of fines in the city court here at Thursday morning's session. Judge L. H. Fuller presiding. Plant was fined \$5 for securing a horse to drive to a certain place when he was going to another, this being false pretenses, \$10 for cruelty to animals and for abandoning the horse, and \$10 for carrying concealed weapons, with costs of \$1.49, a total of \$36.49. Plant pleaded guilty to the charges and paid up.

As to his having a loaded revolver on his person when arrested Plant explained that he thought that a man that carried considerable sums of money was entitled to tote a gun for his own protection.

## Hand Bag Thief Busy.

A crook of the kind that seldom pays attention to towns of the size of Putnam, operated here Wednesday evening. This fellow was a handbag snatcher and his victims were women. On Elm, near the corner of May street, he grabbed a bag from the hand of Mrs. William C. Manning and on Pomfret street he snatched a bag away from Edna Reed of the local post office force. The fellow got just over the

## Christmas Gifts at Shaw's

The "QUALITY STORE," Putnam, Conn.

A Remarkable Exhibit of Pearls, Diamonds, Precious Stones, Sterling Silver, Rich Cut Glass, Clocks, High-Grade Silver Plate, Fine Watches and Jewelry, carefully selected, not only as being representative products of the World's best makes, but as representing value in material, design and workmanship at reasonable prices. Preparations have been made for what is confidently expected will be the largest Christmas Season in my history.

PIANOS ANGELUS PLAYERS SEWING MACHINES

GEORGE E. SHAW, Putnam, Conn.

total of a dollar from both larcenies, not mentioning other contents of the bags somewhat more valuable than the money taken.

Neither woman got a good or even a fair description of the fellow, but this is not surprising, for they did not have the opportunity. Mrs. Manning said that he leaped at her from a crouching position and after grabbing the bag ran up toward the railroad and disappeared behind some piles of railroad ties. After snatching the bag from Miss Reed the fellow ran up Church street. The latter woman describes the man as having on a gray cap and brown coat. There was a tendency among the police on Thursday to connect the work of the handbag thief with that of the person who stole the horse on School street.

## OBITUARY.

## Miss Helen M. Connor.

Helen M. Connor, 15, daughter of Mr. and Mrs. Michael Connor, is dead at her home here. Death was due to erysipelas. The deceased was born in this city August 15, 1897. She was a bright and promising girl and her untimely death causes grief to many friends.

## Good Work of Fire Relief Committee.

The report of the special fire relief fund committee will be ready for giving out in a few days. About \$450 in money contributions were received and in addition generous gifts of household furniture and the many other things that would be needed by the families burned out. The relief has been distributed and is greatly appreciated by the beneficiaries.

## Relief Corps Officers.

Following are the newly elected officers of A. G. Warner, W. R. C.: President, Ella W. Wood; senior vice president, Anna T. Albee; junior vice president, Jennie Darmer; treasurer, E. Emily Tourtelote; chaplain, Julia Finchon; conductress, Mabel G. Carpenter; guard, Lena A. Green; delegate to the state encampment, Elizabeth S. Howell; alternate, Lena A. Green.

## THE PARCELS POST.

Arrangements Made in Local Office to Care for New System—What Postmaster Letters Advise.

Postmaster Letters has arrangements nearly completed for the new parcel post system at the local office, to be inaugurated January 1st, 1913. There will be a window in which the parcel post business will be transacted, this is necessary for the reason that all packages must be weighed and the postage prepaid by distinctive postage stamps affixed, and also bear a return card of the sender. Parcel post mail will run on and after January 1, 1913 embrace all other mat-

ter including farm and factory products not now embraced by law in either the first, second or third class, not exceeding in size more than 72 inches in length, and 16 inches combined in width and depth, and not in form or kind likely to injure the mail matter and not of a character perishable within a period reasonably required for transportation and delivery.

The parcel post territories of the United States are divided into eight zones. The first zone includes all territory within a radial distance of 50 miles, second zone 150 miles, third zone 300 miles, fourth zone 600 miles, fifth zone 1,000 miles, sixth zone 1,400 miles, seventh zone 1,800 miles, eighth zone includes all units of area outside the seventh zone.

The rate of postage on fourth class matter weighing not more than four ounces is one cent an ounce or fraction thereof and on such matter in excess of four ounces the rate shall be by the pound. The local rate of postage on parcels for delivery at the office of mailing or on a rural route starting therefrom is five cents for first pound and one cent for each additional pound up to 11 pounds. The same rate for fifty miles is five cents for one pound and three cents for each additional pound, second zone 50 to 100 miles 6 cents for one pound and four for each additional pound and in the third zone 7 cents for one pound and five for each additional pound and in the fourth which is 12 cents for one pound and 2 cents for each additional pound.

Parcels may be registered or may be accorded special delivery service on payment of the usual fees, and they may be insured against loss in an amount equivalent to their actual value, not to exceed \$25, upon payment of a fee of 5 cents.

Postmaster Letters says the new system will require very careful attention at his office and that all parcels addressed to patrons residing within the free delivery limits of the office will be promptly delivered. Delivery will also be made on all the four rural routes leaving the office.

There will be at least four deliveries to the business section and three to the residential section of the city. Temporarily the deliveries will be made by a substitute carrier who will furnish a team for the purpose.

Postmaster Letters predicts an enormous business for the parcel post system. It will be only a short time, he says, when much more space will be needed in the post office and he believes a collection of parcels will be a part of the system before long in practically the same manner as the collection of other mail from street letter boxes; this will surely be added to the system when the public is well acquainted with the rates of postage applicable to the different zones. The system is bound to be popular and

well patronized because of its rates and the service the post office department gives.

Postmaster Letters also believes it will be but a short time when the weight limit will be increased from eleven pounds.

Patrons of the service should notify senders of parcels to address them the street and number.

## Heard and Seen.

Mayor Archibald Macdonald has returned from a stay of a few days in New York and in Morristown, N. J., where his daughter, Miss Esmeralda, is teaching school.

Lindley Cain, an appendicitis patient at the Day Kimball hospital, is also recovering from an attack of diphtheria.

The Christmas tree for the members of the Methodist Sunday school is to be on Christmas eve.

George C. Raymond of Worcester was a visitor with friends in Putnam Thursday.

There isn't much good in the man who can see no good in others.

## Surely Settles Upset Stomachs

"PAPE'S DIAPEPSIN" ENDS INDIGESTION, GAS, SOURNESS IN FIVE MINUTES.

"Really does" put bad stomachs in order—really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy on dachas; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment Diapepsin comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

## Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: **First**—The indisputable evidence that it is harmless: **Second**—That it not only allays stomach pains and quiets the nerves, but assimilates the food: **Third**—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is

unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Halt's Journal of Health.*

## Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "I use your Castoria in my practice, and in my family."

Dr. W. T. Seelye, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to ask a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
